

LEADERSHIP

Based in the City of Rosario and founded in 1909, ROFEX, guarantees a secure and transparent environment for trading financial and agricultural derivatives, as well as other marketable securities available in Argentina through the interconnection of exchange markets. ROFEX's products are highly-demanded assets settled, cleared and traded in the country, with the support of Argentina Clearing S.A., the exchange's Clearing House.

ACCESS

Become part of an Exchange Market leader in Latin America

More than 140 authorized agents trade daily in ROFEX, an exchange made up of local and international companies that vary in nature and importance.

You can access ROFEX as:

Trading Agent: for companies that prefer to trade all available products in Argentine exchanges and agree on clearing and settlement conditions with other agent.

Settlement and Clearing Agent: for companies that wish to trade, clear and settle available products in Argentine exchanges.

Principals: for clients who wish to trade through a broker. There exist three possible alternatives for doing this:

- **Special Settlement Account (SSA):** legal persons with corporate assets in excess of \$10,000,000 trading their own portfolio.
- **Professional Trader Account:** natural persons who make of trading a regular activity and are willing to commit their participation in exchange for a variety of bonuses.
- **Principal:** natural or legal person who wishes to invest through a broker.

INNOVATION

Global connectivity and electronic trading

ROFEX develops in Argentina innovative products that are traded through cutting-edge technology platforms provided by PRIMARY S.A., the Group's technology company that provides solutions for exchanges and brokers. In order to interconnect its trading platform with other international exchanges, ROFEX implements FIX technologies, a standard electronic communication language at global level. In addition, ROFEX allows its agents the possibility of offering the Direct Market Access functionality (DMA), so that end-investors can trade in different products directly. For more sophisticated investors, ROFEX makes available the possibility of trading through algorithms (Algorithmic Trading).

DIVERSIFICATION
